

WERNER & MERTZ GROUP

Confirmation of antistatic effect

We hereby confirm the general suitability of the following products on Antistatic-/ESD- floorings:

green care TAWIP vioclean
green care TANET SR 15

Both products do not affect the resistance to earth and the electrostatic properties on conductive floorings and can be used on DIN 61340-4-1 certified floorings and surfaces.

In combination with LONGLIFE conductan both products will ensure the maintenance of antistatic properties.

Please ask for and respect the detailed Sustainability Information as well as individual cleaning and care recommendations.

Yours sincerely,
