

# Dye Gone

This unique two part kit is designed to remove stains from a wide range of spills, including coffee, orange squash, cola, hair dyes, and even stains caused by cleaning products such as toilet cleaners.

## Easy to Use

The dual dip tube spray system avoids the need for measuring & pouring product.

Saves time and money whilst maintaining performance.

When replacing solution do not cross contaminate Solution A & B, containers could pressurise and cause the unit to burst.

Always line up the sprayer with the corresponding letter on the top of the label.

Do not store this product on any surface which could be damaged by Hydrogen Peroxide.

Keep away from heat and store in a cool, dry location.

## What Does It Do?

### Effective oxidising dye removal spotter

1. Clean stained area with Chemspec Professional Spot Lifter and rinse, either by blotting or wet vacuuming. If stain is severe leave P.S.L. in.
2. Spray Dye Gone on the stained area, thoroughly saturating the stain but not over wetting. Agitate with tamping brush.
3. Rinse with gold water and blot.

Most stains will respond to cold application. If required heat may be added by applying an iron on a low setting over a damp towel.

**Caution** when using heat monitor closely to ensure the fabric's dye is not affected.

**ALWAYS pre test areas to be treated**

### Dye Gone Characteristics

pH @ use: 9.5 - 10.5

Coverage: n/a

Dilution: Ready to Use

Appearance: Clear Liquid

Fragrance: n/a

Packaging: Case 6 x 650ml
